VirtualFax

Send Voicemail and Fax straight to your email

Virtual Fax-Desktop:

We offer two virtual fax solutions: Virtual Fax-Desktop, a carrier-grade IP fax solution; and Virtual Fax-ATA, which enables you to connect your fax machines to a premise-based fax server. Tidal Communications fax solutions utilize HTTP post technology which eliminates the typical transmission issues associated with using T.38 protocol. This means you can be sure your fax transmissions are successful.

Our Virtual Fax Solutions:

Virtual Fax-Desktop supports sending and receiving faxes in real-time from the computer desktop without the use of any additional hardware. Users can quickly compose a document to be faxed and send it from within applications such as Microsoft Office®.

- **Fax-over-IP Solution** – Cost-effective, easy-to-deploy, strong ROI, future-proof
- **Inbound Fax Routing** – Automatically routes faxes to an email inbox as a PDF
- **High Density/Scalability** – DS3/OC3 high density carrier-grade fax solutions
- **Fax Clients** – Fax machine, fax-to-email, email-to-fax, web browser, Microsoft fax
- **Internet Friendly** - HTTPS for reliability, security, bandwidth reduction (by as much as 80%)

A Step in the Right Direction:

Today's businesses seek secure and reliable fax-over-IP solutions that deliver popular fax-to-email and desktop functionality in real-time. Tidal Communications' Virtual Fax solutions solve the security, service assurance, dependability, and regulatory compliance issues of prevailing fax-over-IP methods and provide added-value features. Tidal Communications' Virtual Fax solutions deliver scalable, high-density, automated, real-time faxing functionality to the desktop.
